

THANK YOU Thank You Thank You

THANK  
YOU!

Dallas' recent benefit at the Union Hall was a success and our family wants to thank the community for all of your love and support. So many generous business owners and individuals came together with contributions and to lend a hand. Seeing everybody collectively work together was very inspiring for Dallas and our entire family. I also want to thank my employer Sprague Insurance, my husband's employer The CBORD Group and our fellow co-workers for standing by us and continuing to offer support through out this difficult time. You all have become an extended family to us.

As for Dallas' surgery, it was also a success and the entire bone tumor has been removed. She now has twelve more weeks of chemo therapy and a year of physical therapy to achieve full recovery. In the end we know she will be victorious. For those of you that wish to remain updated on her progress you can view our blog on her website, [friendsofdallas.com](http://friendsofdallas.com). Once again thank you for all of your generosity and compassion.

May God bless you continuously!  
*Much love, Christine & family*
